

LucidPort's SuperSpeed USB 3.0 to SATA-II Bridge

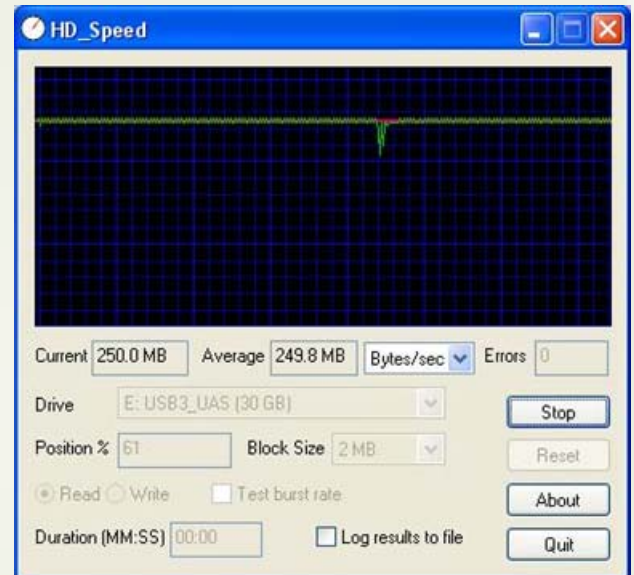

1. Fastest Performance –
up to 250 Mbytes/sec end user bandwidth
2. Selected by the USB-IF for use as the
USB 3.0 compliance device
3. Production parts available now

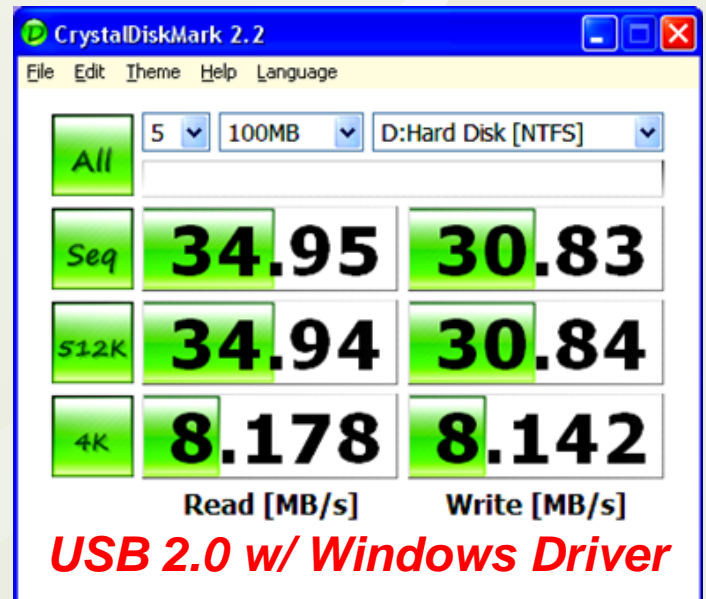

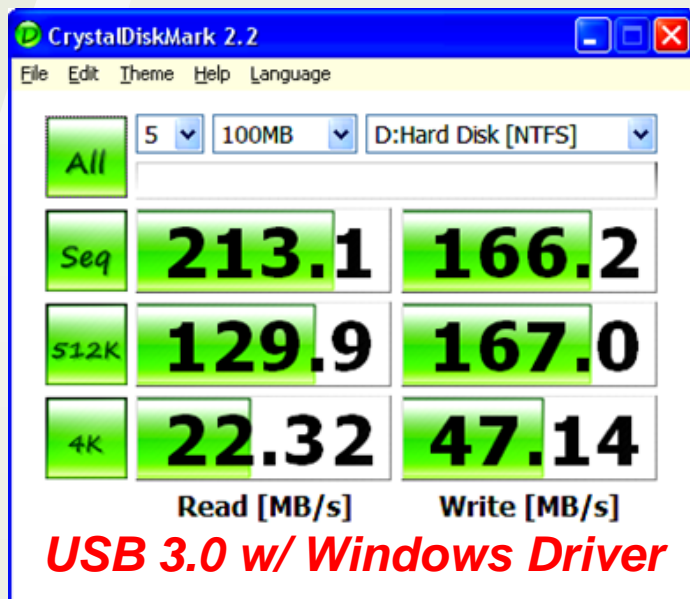

250 Mbytes/sec

with UASP drivers:

- ◆ Optimizes transfers for USB storage devices
- ◆ Higher Peak Performance
- ◆ Higher Random Access Performance
- ◆ Lower CPU Utilization

USB 3.0 w/ UASP Driver

Tests performed with the LucidPort USB300 USB 3.0 to SATA bridge connected to the NEC USB 3.0 Host controller. Disk used is Intel X-25-E SSD. Performance benchmarks used are publicly available freeware "HD Speed" and "Crystal Disk Mark".
